

PROPOSED ACTION: F-15 BEDDOWN

PROPOSED ACTION:

F-15 Beddown:

- **Aircraft:** Beddown of up to 12 Republic of Singapore Air Force (RSAF) F-15 fighter aircraft with anticipated arrival in 2029
- **Operations:** F-15 aircraft operations (i.e., flight operations that include a takeoff and landing) from Andersen Air Force Base (AFB), to include hosting periodic, temporary aircraft in support of the training mission requirements for the F-15s
 - » Each training event would include an additional 12 F-15s (i.e., total of 24 F-15s per training event), 1 tanker/refueling aircraft (e.g., KC-135, KC-46, A-330), and 1 early warning aircraft (e.g., G-550).
 - » Training events with these additional aircraft would begin in 2030, after the F-15 beddown action is complete, and would occur for four weeks per event, twice per year.
 - » No new airspace is proposed and no changes to the manner in which the existing airspace is used would occur.
- **Personnel:** Increase in 240 personnel at the installation, concurrent with the 2029 beddown, to conform to squadron mission requirements. During each four-week training event, which would occur twice per year, an additional approximately 200 personnel would be required for the duration of the event.

ENVIRONMENTAL IMPACT STATEMENT

F-15 BEDDOWN AND INFRASTRUCTURE UPGRADES AT ANDERSEN AIR FORCE BASE, GUAM
